New vendor to administer Maryland Insurance Administration licensing examinations

Prometric will offer online testing with remote proctoring

BALTIMORE – Effective October 1, Prometric will begin providing pre-licensing education and insurance licensing examinations to Maryland insurance professionals.

For the first time, Maryland Insurance Administration examinations will be available online with remote proctoring, using the Prometric ProProctor application. Prometric will also operate traditional test centers throughout the state. A list of those centers is below.

"We anticipate a smooth transition to our new vendor, Prometric," said Maryland Insurance Commissioner Kathleen A. Birrane. "We are also very excited to make online testing available. In addition to addressing challenges posed by COVID-19, on-line testing reduces barriers to entry for people who are interested in careers in insurance."

Prospective licensees can begin contacting Prometric to schedule examinations on October 1 by calling 1-800-610-1174 or registering online through Prometric.com.

The last day to take examinations through our current vendor, PSI, is September 30.

The pre-licensing course and license examination are required to qualify for most insurance licenses under Maryland state law. After completing pre-licensing education requirements and passing the license examination, the license application is thoroughly reviewed. Once it has been determined that the license applicant meets the qualifying requirements, an insurance license can be issued.

Prometric will operate the following test centers:
